

Respected Sir / Madam,

**Greetings from IET India!**

We are pleased to present the 6th edition of the **IET India Scholarship Award 2022** for future engineers, innovators and creative thinkers. Over the past decade, the IET India Scholarship Award has benefitted many young engineering students from the top engineering institutes, like yours, across the country. **This year, we are giving away a combined prize money of Rs. 10,00,000** and want to invite your prestigious institute and students to take part once again.

This Award was instituted to reward and recognise young achievers who are technically-sound and come up with creative technology-led solutions for critical societal challenges. Additionally, the winners and their affiliated college garner immense media visibility and prestige. Apart from the experience of the process itself, the students also gain the opportunity to be mentored by industry experts during the process and we believe it will add tremendous value to their career. Past winners have gone on to join industry stalwarts like Apple, Boeing, Deloitte and MIT, and some have even become entrepreneurs themselves.

Read more about the past winners, eligibility, important dates, award process and more on our website: <https://scholarships.theietevents.com/>

We need your help to spread the word about IET India Scholarship Award 2022 in your institute. Some of the key features of this scholarship award are:

- Open to all undergraduate students pursuing any stream of engineering
- The combined rewards are upto Rs. 10 Lakh for all the winners
- Application deadline: 1 Aug, 2022
- No registration or participation fee

Over 5,500 engineering students have already registered for the IET India Scholarship Award and we look forward to having loads of entries this year, especially from your institute. To help you spread the word, we have included posters about the IET India scholarship with this letter.

May the best students win!

*Ujani Ghosh*
