First Call for NBL-2023 @ NIT Srinagar

No.: NIT.PHY.22.1211E
 11th November 2022

Dated.....

Subject: 8th Edition of "International Conference on Nanotechnology for Better Living" NBL-23 from 25-29 May 2023, in collaboration with IIT BHU and many organizations.

Esteemed Sir/Madam,

Greetings from NIT Srinagar!

The 8th edition of biennial **International Conference on Nanotechnology for Better Living**" NBL-23, is being organized by NIT Srinagar (J&K) in association with the prestigious institutions/organizations including with IIT BHU from 25-29 May 2023, which marks the birth anniversary of a Physicist and an inventor **Daniel Gabriel Fahrenheit**. A fabulous fusion of biological, chemical, physical, agricultural and health sciences is expected to provide a vibrant platform to present and discuss path breaking research ideas in nanotechnologies and shall be an interface between academia and industries. There is also a need to develop young minds for nanoscience and we have made arrangements for the **pre-conference tutorials** for school children who are supposed to work on innovative projects as envisaged in New Education Policy 2020 and to work for the Sustainable Development Goals (SDGs), a shared plan to save the planet. Thus, dedicated sessions, "Seeding Nanoscience to Young Minds" and "Nurturing minds for a better world" shall be conducted during the conclave by few stalwarts, thus handing over this multidisciplinary science to our young and smart generation. A galaxy of local innovators and entrepreneurs shall be the part of the summit, along with our own students.

It is pertinent to mention that the event is being organized in the backdrop of NBL series, which were marvelous and memorable joint events between IIT Kanpur/IIT Kharagpur/IIT Delhi and their partisanship will continue for this noble cause. I am attaching a brochure of the scientific event; the necessary details are mentioned in brief and the deadline has been fixed as **30th January 2023** for extended Abstract Submission (one page with schematic diagram/graphical abstract and conclusion). The format is available on www.icnbl.org. Do join us with families and friends for this scientific and academic conclave! I look forward for your kind cooperation in forwarding this information to your colleagues, students and friends for wide circulation and for participation thereof in this sacred place of saints from 25th May 2023 at NIT Srinagar. Copy of the brochure may please be displayed.

With very best regards

Dr. M. A. Shah
