 25 August, 2023

Dear Sir/Madam,

Greetings from STRIDE-EMPC!

The Staff Training and Research Institute of Distance Education (STRIDE) in collaboration with Electronic Media Production Centre (EMPC), Indira Gandhi National Open University (IGNOU), New Delhi is organizing a UGC-Approved & UGC-HRDC equivalent Six-day Short Term Professional Development Programme on "NEP-2020 & Higher Education: Design and Development of Audio-Video Programmes" which is to be conducted through Face-to-Face mode from 9th-14th October, 2023. STRIDE Short Term Professional Development Programmes are recognized as UGC-HRDC equivalent for API and CAS. The programme is open to Faculty/Academics/others from all HEIs, SU/Is, SoUs, DEIs and other EUs, and NGOs

This programme has been designed to take forward the implementation of technology-enabled learning vis-à-vis the National Education Policy 2020 (which has emphasized the extensive use of technology in teaching and learning). The NEP states that teachers and faculty are at the heart of the learning process and therefore their continuous professional development is of utmost importance. Post-Covid, the importance of effective learning through Audio-Video has become integral for all modes of education. However, the development of Audio-Video programmes requires training, hence there is a need for a specialized programme to develop competencies amongst faculties to deal with this aspect of technology.

STRIDE is the professional staff development institute for organizing capacity building programmes for upgrading skills of teachers of Higher Education. This programme is being organized in collaboration with Electronic Media Production Centre (EMPC), which has the state of the art media production facilities and runs the Gyan Darshan channel and Gyan Vani FM Radio programme.

Specific Learning Outcomes of the Programme:

Upon completion of the programme, the participants shall be able to:

- Apply pedagogical principles in designing audio and video programmes.
- Develop script writing skills for audio and video programmes.
- Demonstrate effective on-camera presentation ability for videos/online/MOOCs
- Perform telecasting in HD and virtual studios.
- Practise on-air broadcasting for radio, podcasting, voice overs
