Sub: Residential Training Programme on "Digital Transformation through e-Governance" from December 18-22, 2023 at Goa - Request for Nominations.

Dear Sir/Madam,

National Productivity Council is an autonomous organization under the Ministry of Commerce and Industry, Govt. of India. It promotes productivity promotion by undertaking consultancy, training and research assignments in frontier areas of management disciplines. National Productivity Council is organizing residential training program on "Digital Transformation through e-Governance" from December 18-22, 2023 at Goa.

INTRODUCTION

Governments around the world are going through a digital transformation, although they are in various stages of implementation. Digital transformation has greater importance in the context of inclusive growth and has transformed globally, owing to the changes taking place in technology and economic fronts. An initiative driving this growth is the Digital India. The Digital India programme is a flagship programme of India with a vision to transform India into a digitally empowered society and knowledge economy. In line with the vision of Digital India, e-Governance contributes to the key vision area of "Digital Empowerment of citizens" through "Transforming e-Governance". In this regard, some of the innovative public service institutions are embracing the digital transformation, which helps in reducing operational costs, and boosting creativity and innovation and improving the overall user experience.

However, the application of e-Governance in India is a challenging and enormous task. But the potential opportunity is large and quite significant. Successful implementation of e-Governance requires ability and willingness to reengineer the working processes and the skills of managing large scale transformation in addition to the ever evolving technological changes.

Keeping in view the need for an effective understanding and sharing experience for the purpose of government transformation, National Productivity Council has designed this programme to provide a platform to learn, share and deliberate on concepts and experiences.

COURSE COVERAGE

- E-governance in the digital era - an overview
- Emergence of digital technology -Technology Trends
- Business Process Transformation and change management

- **Building a knowledge driven culture of innovation**
- **Technological challenges in the digital era**
- **Case study presentations and discussions.**
