

Get Credit for Your Work - Check your Scopus Profile

Dear Sir/Madam,

Your Scopus Author Profile (automatically created by Scopus) showcases various indicators including number of citations, publication history and h-index. These metrics may be used for tenure, promotion, funding and for other research performance based decisions; therefore, it is important to ensure your profile reflects your information correctly. Despite the sophistication of the algorithmic profiling used by Scopus, algorithms cannot always match all documents to a single profile with 100% accuracy. That is why the Scopus Author Feedback Wizard allows you to review your Scopus profile and submit feedback. In order to make sure that the correct papers are associated with your preferred profile name under Panjab University, Chandigarh please click on [How do I use the Author Feedback Wizard? - Scopus: Profile and content corrections Support Center \(elsevier.com\)](#) which will help you to understand the step by step procedure for making changes in your Scopus profile.

Scopus Video Tutorial on correcting author profile can be also accessed at [How to make corrections to your author profile tutorial - Scopus: Access and use Support Center \(elsevier.com\)](#)

For any clarifications/ assistance, please contact Dr. Neeraj Kumar Singh, Deputy Librarian, A C Joshi Library, PU Chandigarh at neeraj.singh@pu.ac.in

Regards,

Dean of University Instruction
