CIRCULAR

All Deans of Faculties are requested to make sure that candidates appearing for the ongoing CAS interviews must base their PPT presentations on their best research work. PPTs must be research-based and should include those slides that are relevant to the research work of the candidates.

Before appearing for interview, the candidates themselves are required to ensure that adequate slides referring to their research work/ books/ papers have been vetted by their respective Deans.

It has also been reiterated in previous circulars that PPT presentations should be free of technical glitches/snags and that irrelevant detail is avoided.
