

**Subject: CHASCON-2022 (Registration)**

**The Chairperson / Director**

**Department / Centre, Panjab University**

Panjab University in collaboration with CRIKC institutes is organizing Chandigarh Science Congress, 2022 (CHASCON-2022) from September 15-17, 2022. This year the theme of the congress is "Towards Holistic development of Science and Technology through inter disciplinary approach".

This is an occasion for the academic, research institutes / industry, scholars, scientists, faculty, experts to come together and deliberate and exchange views on developments in science and technologies. Opportunities exist for establishing collaborations, translations and capitalization of research ideas and industry-academia interactions and further details are available on congress website <https://chascon.puchd.ac.in/>

**Since it's a major event of Panjab University the Chairpersons / Directors of Department / Centre should actively encourage participation and faculty, scholars with their own fellowships should compulsorily register for the congress. The link for online registration form and online payment is available on the website.**

This year an important event in CHASCON-2022 is the congress exhibition. This is an opportunity to showcase your institute profile, share important developments in your organization with the wide audience and attract potential collaborations. Departments and centres are encouraged to participate in the exhibition and more details are available on the link (<https://chascon.puchd.ac.in/chascon-exhibition/>).
