Dear Sir/Ma&#39;am,

CSIR-Integrated Skill Initiative at CSIR-IITR is organizing a two-day workshop program on CRISPR: Gene Editing Tool under the guidance of Dr. Devashish Rath, Scientific Officer, Bhabha Atomic Research Centre (BARC), and Dr. Ravi Ram Kristipati, Senior Principal Scientist, CSIR-IITR, Lucknow on January 12-13, 2023 at CSIR-IITR, Main Campus, Lucknow.

Students pursuing Master&#39;s courses and PhD courses will have immense benefits from this workshop. Learn with us about genome editing, tools for genome editing: ZFNs, TALENs and CRISPR-Cas, gRNA design, off-target analysis and genotyping and much more.

This workshop is being held under the Integrated Skill Initiative of CSIR, New Delhi. Skill Development Program is an initiative of the government of India to give a chance to [UTF-8?]todayâ€™s young generation to hone their skills. The whole Program surrounds the premise that this young generation can have hands-on training in their respective fields under the guidance of experts which will help them get more job opportunities and move India forward in the field of science and technology. "Padhega India tabhi to Badhega [UTF-8?]Indiaâ€™ is a popular slogan of the government of India, but [UTF-8?]â€™â€™Seekhega India tabhi to aur badhega [UTF-8?]Indiaâ€™ can be said aptly for [UTF-8?]todayâ€™s scenario.

Also, the poster is included here for you to have a wider circulation of the information. I hope that you will consider my request and I look forward to your department&#39;s participation in the workshops.

Best Regards,

Dr. Ravi Ram Kristipati

Nodal Scientist

CSIR-Integrated Skill Initiative at CSIR-IITR

Dr. Ravi Ram Kristipati Senior Principal Scientist

Professor, AcSIR
